Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species A ---- Figure 3

Species B ---- Figure 4.

Species C ---- Figure 5

The species are independent or distinct because as shown in the drawings there is enough differing structure to support separate patents. Further, as stated in the specification, the embodiment of figure 3 is directed to both towing and towed vehicles, where the embodiment of figure 4 is directed to just the tow vehicle. Figure 3 is an alternate embodiment to figure 3, but in schematic form. As best understood this embodiment could support a separate patent based on it's distinctive structure.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-10, drawn to figure 2, classified in class 251, subclass 355.

Group II. Claims 11-30 drawn to figures 3-5, classified in class 303, subclass 7.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed Species and Group for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher P. Schwartz whose telephone number is 571-272-7123. The examiner can normally be reached on M-F 10:30-7:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jim McClellan can be reached on 571-272-6786. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
